Folks, I have reviewed the minimum bar documents; I've gotten some comments/input from NMFS; I've talked to Jeff Lockwood about the comments; I've read your most recent internal reworking of the ideas, etc.

So, bottom, I think we give Dennis and Will a somewhat revised document that we gave them before on the forestry minimums. So, here they are with my revisions. I need to get these to Dennis this afternoon. Please review ASAP and let me know if there are any heartburn flaws you see. (Only heartburn flaws, please!)

Thanks.
